Hi Dave - I'm still on the phone, but can talk with you about this. We may want to talk about this with Jayne. NWEA has sent us a series of letters about concerns with CZARA, and I believe our responses have been short.

Hi-

I am going to have Martha initiate the first draft of EPA's response to NWEA's letter as requested by Opalski. Then when Jenny and Jayne are back in the office, I will need one of you to take-over completing the letter. Thanks

Dave -- I may have missed this if/when it came to me directly (the letter Nina talked to Dave about), but in any event, please prepare a response for my signature. It'd be nice if I could sign something the week I get back. Christine can sign for me if something gets done before I return.

Obviously, our response can reference our initial assessment, which of course she is aware of, but I think we need to agree that our final approval will need to consider how the potential for biological contamination are being addressed.

Thx, DanO.
